As defined in the Indiana State Plan Amendment 1-1-93 under Title XIX of the Social Security Act, "specialized services are those services identified through the Level II Assessment which are required to address the identified needs related to the person's developmental disability and/or mental illness. These services are not typically provided within or by a nursing facility due to the duration and/or intensity of the services. Specialized services include, but are not limited to, short-term inpatient psychiatric care, long-term inpatient psychiatric care, supported employment, supported employment follow along, sheltered work, vocational evaluation, work adjustment training, vocational skills training and job placement." Specialized Rehabilitative Services are those services identified through the Level II assessment which are required to address one's identified needs as a result of their developmental disability and/or mental illness. These services are less intensive than "Specialized Services" and can be provided in a nursing facility or under contract with outside sources. For persons with a developmental disability the following service options should be considered as specialized services, specialized rehabilitative services, or both, and the appropriate services checked by the OBRA Service Coordinator.
